

Winning Under the TEAM Payment Model

WE SERVE
TO **SOLVE**

Develop and Execute Your Game Plan

The Transforming Episodic Accountability Model—TEAM—is a mandatory episodic payment model effective January 1, 2026, under which selected acute care hospitals will be financially accountable for the total costs of specified episodes of care for traditional Medicare beneficiaries.

With our deep experience in value-based payment models, PYA can help your organization develop and execute its game plan for TEAM success.

How PYA Can Help

Internal Education and Team Building

- Practical education sessions for board members, management, and key staff
- Medical staff education and engagement
- Ongoing regulatory updates

Performance Transformation

- Develop and implement pre-procedure interventions
- Quantify internal cost-saving opportunities
- Evaluate and enhance discharge planning and transitions of care
- Implement care management and remote monitoring programs
- Establish processes for post-discharge primary care referrals
- Assess post-acute care provider costs and outcomes

Collaboration Arrangements

- Drafting of required policies for partner selection
- Development and monitoring of gainsharing arrangements
- Support for negotiations of collaboration agreements
- Fair market value and commercial reasonableness opinions

Claims Data Analytics

- Customized and timely dashboards tracking individual episodes and trends
- Financial modeling to evaluate impact of performance improvement initiatives
- Comparative analysis of physician and post-acute provider performance

PYA has earned the trust of some of the most recognized healthcare organizations through our 40 years of expert guidance. Contact us at TEAM@pyapc.com, or call 865-673-0844.
